MUNICIPAL FINANCIAL INFORMATION 1988 INFORMATION FINANCIÈRE DES MUNICIPALITÉS

MUNICIPAL FINANCIAL INFORMATION 1988 INFORMATION FINANCIÈRE DES MUNICIPALITÉS

MINISTER'S MESSAGE:

It gives me great pleasure to present the 1988 edition of MUNICIPAL FINANCIAL INFORMATION.

This publication contains information on the financial affairs of municipal governments across the province for 1988. It should be of great interest not only to provincial and local officials, but also to the public at large.

MUNICIPAL FIRMCIAL INFORMATION 1988, (like the 1987 edition, aims at providing as detailed information on individual municipalities as possible. However, as in previous years, the Ministry will continue to provide additional financial data for individual municipalities or groups of municipalities on request.

MESSAGE DU MINISTRE :

C'est avec plaisir que je vous présente l'édition 1988 de la publication
<<!iNFORMATION FINANCIÈRE DES MUNICIPALITÉS>>.

Cette publication contient des renseignements sur la situation financière des municipalités de la province pour l'année 1988. Ce document devrait revètir un intérêt certain tant pour les fonctionnaires provinciaux et municipaux que pour le grand public.

Vise à fournir le plus de détails passible sur chaque municipalité. Toutefois, comme dans le passé, le Hinistère va continuer à répondre aux demandes de données financières additionelles sur les municipalités.

Le ministre des Affaires municipales,

Dave Cooke

PREFACE

Data Sources

This publication is based primarily on the Financial Information Returns (FIRs) submitted annually to the Ministry of Municipal Affairs by all Ontario manicipalities. The statistics shown in this report were extracted from the Ministry's database that contains all the information from the FIRs as well as other municipal data.

The presentation of the data follows the fund basis on which municipalities are required to report their financial affeirs. The three funds are the revenue fund, the capital fund and reserves and reserve funds. The first reports not only such ordinary operating expenditures as salaries, services and supplies, but also such items as debt charges, transfers to the capital fund and transfers to reserves and reserve funds. The second is used to account for expenditures that create or extend the useful life of municipal plant and equipment. The third fund is used to account for money put aside by a municipality for application on designated projects at a later date, to cover future liabilities and to provide for working funds or contingencies.

The functional categories, under which municipal services are reported in this publication, reflect the standard reporting requirements of the FIR. Chapter II defines each category and the services or expenditures they include.

In the FIRs, municipalities are required to consolidate the transactions of approximately 2,000 local boards including library and health boards and transit commissions. Exceptions to this rule include hydro systems, gas and telephone utilities, hospitals, conservation authorities, children's aid societies and housing authorities. Only the municipal contributions to these entities appear in the FIR. In order to present an accurate picture of the extent of local financial activities, the figures for conservation authorities and children's aid societies have been adjusted to include provincial transfer payments, their only other source of funds.

Local Government Structure

A general understanding of the structure of Ontario local governments is useful for interpreting the information contained in this publication. At the end of 1080, there were 839 municipalities in the Province. Of these, 800 were "lower tier" or "local" municipalities (cities, towns, separated towns, villages, townships and improvement districts), and 39

PRÉFACE

Sources des données

La présente publication s'appuie essentiellement sur les Rapports d'information financière envoyés chaque année par toutes les municipalités de l'Ontario au ministère des Affaires municipales.

Les données sont présentées par fonds, puisque les municipalités doivent déclarer leur situation financière selon ce mode de comptabilisation. Les trois fonds sont le fonds d'administration, le fonds de capital et d'emprunt et les réserves et fonds de réserves. Dans le premier, on trouve non seulement les dépenses ordinaires de fonctionment telles que les salaires, les services et les fournitures, mais également des postes tels que le service de la dette, les virements au fonds de capital et d'emprunt et les virements aux réserves et fonds de réserves. Dans le deuxième, sont comptabilisées les dépenses qui servent à acquérir les installations et le matériel de la municipalité ou à en prolonger la durée de vie utile. Le troisième fonds ser à comptabiliser les montants mis de côté par une municipalité en une de réaliser des projets particuliers à une date ultérieure, d'acquitter ses dettes futures et de se donner un fonds de proviement ou monds de proviement ou un fonds de proviement ou un fonds de proviement ou un fonds de proviement ou monds de proviement de

Les catégories fonctionnelles qui ont été retenues pour analyser et présenter les services manicipaux dans cette publication reflètent les normes de présentation des Rapports d'information financière. Le chapitre I définit chaque catégorie et les services ou les dépenses qui y figurent.

Dans les Rapports d'information financière, les municipalités doivent consolider les opératné d'environ 2 000 conseils locaux, y compris les conseils de bibliothèque, les conseils de sainné et les commissions de transport. Les services publics d'électricité, de gaz et de téléphone, les hôpitaux, les offices de protection de la nature, les saciétés d'aide à l'enfance et les organismes de logement y font toutefois exception. Seules les contributions des municipalités à ces organismes figurent dans le Rapport d'information financière. Pour présenter une image fidèle des activités financières des municipalités, les chiffres des offices de protection de la nature et des sociétés d'aide à l'enfance ont été redressés afin d'inclure les paiements de transfert provinciaux, leur seuls source de financement.

Structure des administrations locales

Pour bien interpréter les renseignements contenus dans la présente publication, il est bon d'avoir une idée générale de la structure des administrations locales de l'Ontario. À la fin de 1988, la province comptait 839 municipalités. De ce nombre, 800 étaient des municipalités de palier inférieur ou municipalités locales (cités, villes, villes séparées, villages,

were "upper tier" municipalities (counties and regional poverments). In 1988, four municipality changed status. The former Township of Sarnia became the Town of Clearwater on January 1, 1988; on September 1, 1988, the Township of Westminister was erected to the Town of Westminister while on December 1, 1988 the Township of Jaffray & Hellick became the Town of Jaffray & Hellick and the Township of Marathon became the Town of Harathon.

Where the county system is in effect, lower tier municipalities have the responsibility to provide most municipal services to their residents. The county governments provide only county roads, homes for the aged and welfare administration out of the spectrum of major servicies generally provided by municipalities. The cities and separated towns located in a county are financially independent of the county for municipal purposes and are responsible for the provision of all services to their residents. As such, they do not raise taxes no behalf of the upper tier or county government. Examples of such centres include the City of London, the City of Windsor, the City of Kingston and the Separated Town of Smith Fells. Lower tiers which participate in the county structure raise taxes for their own purposes as well as money recusistioned by both the upper tier and school board.

Two-thirds of Ontario's population live in areas with a regional form of government. This includes, in addition to the ten regional municipalities established over the period 1969-74, the Municipality of Metropolitan Toronto (1954), the District Municipality of Muskoka (1972) and the Restructured County of Oxford (1975). The upper tier in a region has more service responsibilities than in a county structure. While there are variations from one region to another, regional services include arterial roads, transit, policing, sever and where systems, planning and development on a region-wide basis, and all health and social services. The lower tier municipalities look after local roads, fire protection, garbage collection, recreation and local planning needs. All lower tier municipalities look after local roads, fire protection, garbage collection, recreation and local planning needs. All lower tier municipalities look are since taxes to support the regional level of government. In some cases, the upper tier will also raise taxes to support the regional level of government. In some cases, the upper tier will also raise taxes to support the regional level of government.

Communities in northern Ontario are widely dispersed and most territory between them is not organized for municipal purposes. There are no county governments and only one regional government (Sudbury), although, there are several urban centres of significant size. The ten territorial districts into which the north has been divided, exist for judicial and administrative purposes only. The operations of Local Service Boards and roads boards which provide services to people living in areas without municipal organization, have been excluded from this publication.

In Chapter II, Ontario's municipalities have been grouped into six types, or sectors. The division of the groups is based on type of organization, servicing responsibilities and location.

cantons et districts en voie d'organisation), et 39 des municipalités de palier supérieur (contés et municipalités régionales). En 1988, quatre municipalités out changé de statut. Le canton de Sarnia est devenu la ville de Clearwater le 1 janvier 1988; le 1 septembre 1988, le canton de Wastmister est devenu la ville de Vestimister elors que le 1 décember 1988, le canton de Jaffray & Hellick est devenu la ville de Vestimister elors que le 1 décember 1988, le canton de Jaffray & Vellick est devenu la ville de Jaffray & Hellick et le canton de Marathon est devenu la ville de Narathon.

Lorsque le découpage en contés est en vigueur , les municipalités de palier inférieur ont la responsabilité de fournir la majorité des services municipaux à leurs résidents. Les municipalités de conté fournissent seulement les routes de conté, les foyers pour personnes àgées et les services d'administration de l'aidé sociale dans l'éventail des principaux services généralement offerts par les municipalités . Les cités et les villes séparées situées dans un comté sont financièrement indépendantes du conté aux fins municipales et sont responsables de la fourniture de tous les services à leurs résidents. Comme tel, elles ne percoivent pas d'impôts pour le compte des municipalités de palier supérieur ni des administrations de contés. Citons comme exemples la cité de London, la cité de Windoor, la cité de Xingston et la ville séparée de Smith Falls. Les municipalités de palier judicités de palier judicités de palier supérieur et les conseils scolaires.

Les deux tiers de la population de l'Ontario vivent dans des régions gérées par des municipalités régionales on y compte, outre les dix municipalités régionales d'tablies au cours de la période 1969-1974, la municipalité de la communauté urbaine de Toronto (1954), la municipalité de district de Muskok (1972) et le comté réorganisé d'Oxford (1975). Les municipalités de palier supérieur dans une région doivent assurer plus de services que dans un comté. Blen qu'ils varient d'une région à l'autre, les services régionaux comprennent les routes et artères, les transports en commun, la police, les réseaux d'égouts et d'adduction d'eau, l'aménagement et la mise en valeur du territoire à l'échetle de la région et l'ensemble des services de santé et des services ociaux. Les municipalités de palier inférieur s'occupant des routes locales, de la protection contre les incendies, de la collecte des ordures, des loisirs et de l'aménagement local. Toutes les municipalités de palier inférieur d'une région offrent des services à leurs contribuables par l'intermédiaire de la région et percoivent donc des impôts pour le compre de la municipalité s'gionale.

Les communautés du Nord de l'Ontario sont très dispersées, et la majeure partie du territoire qui les sépare n'est pas organisée en municipalités. Il n'existe aucune municipalité de conté, et on y compte une seule municipalité régionale (Sudbury), bien qu'il y ait plusieurs centres urbains assez importants. Les dix districts territoriaux qui composent le Nord existent uniquement à des fins judiciaires et administratives. Nous avons exclu de la présente publication les régies locales de services publics et les offices de la voirie qui fournissent des services aux habitants des régions asna organisation municipale.

Dans le chapitre II, les municipalités de l'Ontario ont été groupées en six types ou catégories. La division des groupes est fondée sur le genre d'organisation, les services à fournir et l'emplacement géographique.
